

At the Same Time

Love
Can't wait for love
Baby girl

1st Verse:

Can't believe girl who we are
And how we've grown so far apart
Wish I would have known this from the start
That your heart
I would lose

Now I look back I should have known
My actions would lead to nights alone
And even bringing new girls to my home
It feels wrong

Cuz they're not u
And they never will
Be able to replace
Who I love and how I feel (for u)

And everything I miss
Starting with the words I love u rolling off ur lips
Every little kiss
Wish to regret them but I just reminisce
About the times we had
Wish I could have them back

Chorus:

Wish we had a choice on who we love
Wish I had a choice on who I was dreaming of
Cuz I wake with u on my mind
Too bad we didn't fall in love at the same time

2nd Verse:

Guess I'm the only one to blame
Gave me your heart when u came

At the time I didn't feel the same the pain
I must have caused

Those nights u laid there feeling lost
And by the time my heart made the choice
To love u I lost u but of course
And your voice
I still hear, telling me goodbye
Telling me that u no longer wanna try (on this)
And that my words came too late
And it was something that your heart could not relate to (anymore)
I said stay (I said stay)
U said what for (said what for)
And I know how we started
That's why it's funny
My heart u now ignore

Repeat Chorus

Bridge:

I see how we started
Now we're both left brokenhearted
Waiting for some love to reply
While one is open wide
Other is closed in

Repeat Chorus
