

Come With Me (Feat. The Ones)

In the morning just the splendor of the sunshine gets me up to go
I wake up and hear the song the birds are singing how it moves me so
People movin' people groovin' to the rhythm in their special way
Then you feel it in the promise of the morning, it's a lovely day

Chorus

I keep my head up, live with a smile on my face,
Cause it's just too bright to let light go to waste
And you can live in this beautiful place if you come with me

I am happy when I look at all the people they love me I know
I am thankful in the presence of the children just to see them grow
Everyday my lady bless me with her sugar and her lovely smile
When you're living in a world so lovely there's no time to frown

Chorus

Gonna keep my head up, live with a smile on my face
Cause I'm just too bright to let light go to waste
And you can live in this beautiful place if you come with me

When there are clouds in the sky it's (alright) gonna be (alright)
Sometimes we have to cry but it's (all joy) just count it (all joy)
Sometimes we won't see eye to eye but it's (all love) you know it's (all love)
There ain't no reason to worry at all

When there are clouds in the sky (alright) gonna be (alright)
Sometimes we have to cry but it's (all joy) you count it (all joy)
Sometimes we won't see eye to eye but it's (all love) you know it's (all love)
There ain't no reason to worry at all

(K. Lemuel, Yaw, M. Nilsson)
