

# Strangers

## *Chorus*

Strangers meet, become friends, fall in love  
But see love must win  
Strangers meet, become friends, fall in love  
But see love must win  
(Oh we're) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(Come on) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again

## *1st Verse*

Met this chick about a year ago and what I love about her  
She had so much soul, plus a mind that my mom would like  
And even pops said her body's outta control  
We four at this spot I couldn't seen a thang going wrong  
Thought we was good, then all of a sudden  
She and I hit went and hit the reset button

## *Chorus*

Strangers meet, become friends, fall in love  
But see love must win  
Strangers meet, become friends, fall in love  
But see love must win  
(Oh we're) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(Come on) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again

### ***2nd Verse***

A stranger comes along catches an eye  
Gives back a smile waits for reply  
Friends are formed, things transform  
Lay in my arms now love is warm  
If I know I would have hurt my friend  
I might not even tried (it's what you know)  
It's when I see her out with her girls She just walks right by

### ***Chorus***

Strangers meet, become friends, fall in love  
But see love must win  
Strangers meet, become friends, fall in love  
But see love must win  
(Oh we're) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(Come on) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again

### ***Bridge***

Now see I prefer (I prefer)  
To just take it slow (take it slow)  
Now see with love sometimes that we just roll  
Well is there anybody out there this evening  
Still, still, still believe in love

### ***Chorus***

Strangers meet, become friends, fall in love  
But see love must win  
Strangers meet, become friends, fall in love  
But see love must win  
(Oh we're) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(Come on) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again  
(We're just) Strangers again
